DETAILED ACTION

Specification

1. The amendment filed 05/09/07 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows:

The newly added limitations at page 9, line 34 through page 10, line 17 in the specification introduce new matter into the disclosure of the invention.

Applicant is required to cancel the new matter in the reply to this Office Action.

Election/Restrictions

2. Newly submitted claims 16-19 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

The original claims do not claim a specific construction of an emboss with the center line average, a maximum peak to valley roughness height and a ten point height as now claimed in claims 16-19.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 16-19 have been withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Art Unit: 2615

Claim Rejections - 35 USC § 112

3. Claim 22 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The original specification does not provide support for the limitations of the emboss including a center line average, a maximum peak to valley roughness height and a ten point height as now claimed in claim 22.

Allowable Subject Matter

4. Claims 14-15 and 20-21 have been allowed.

Response to Arguments

5. Applicant's arguments with respect to claims 16-19 and 22 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 2615

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
